

Shuruaati EMI Mostly Interest Kyun Hoti Hai?

EMI = Equated Monthly Instalment

Andar 2 hisse: Principal + Interest

$$\text{EMI} = \text{Principal} \times \text{Rate} \times \text{Tenure}$$

Byaj hamesha BAKI loan par

₹30L Loan

9%

$$9\%/saal \div 12 = \underline{0.75\%/month}$$

Lagta hai baki loan par

**1st EMI: ₹22,500 interest + ₹4,492
principal = ~83% byaj**

**Saal-dar-saal: Interest ghatta hai,
Principal badhta hai**

20 saal mein total ≈ ₹64.78L

Byaj akela ≈ ₹34.78L!

**Prepayment = principal ghatao = kam
byaj**

Floating par penalty nahi

Chhota tenure = lakhon bachat

Rate compare

**1. EMI = principal+interest 2. Shuru
mein 83% byaj 3. Prepay = bachat**
