

RO vs UV vs UF — Sahi Purifier Kaunsa?

Paani mein 2 problem: 1) Ghule salt/TDS 2) Germs

RO = Reverse Osmosis

Hatata hai: Khaarapan, TDS, Heavy metals

UV = Ultraviolet

Maarta hai: Germs

UF = Ultra Filtration

Rokta: Gandagi, bacteria

RO ₹10-20k

UV ₹7-12k

**Pehle TDS check karwao, phir purifier
chuno**

**Combo = Complete protection, par
sabse mehnga**

Lo tabhi jab paani ko teeno chahiye

**RO □ Khaarapan/heavy metals hatata □
Bijli, paani waste, minerals bhi nikalte**

UV ☐ Germ ☐ Khaarapan

UF ☐ Sasta, bijli-free ☐ Khaarapan, chhote virus

Rule: TDS 500+ → RO

Germ daar → UV/UF

RO=TDS ka boss

UV=germ killer

**Sahi purifier = aapke paani ki problem
solve kare**
