

LCM aur HCF!

Factors = bhaajak

Multiples = table

HCF = Highest Common Factor

12 aur 18 ka HCF = 6

LCM = Lowest Common Multiple

4 aur 6 ka LCM = 12

**Dono ghantiyaan = 12 min baad ek
saath!**

12 toffees + 18 chocolates = 6 bags

HCF × LCM = dono numbers ka product!
