

YAWNING — Itna Contagious Kyun?

Ek yawn = ~6 seconds

Fetus se snake tak sabko aata hai

Oxygen theory = GALAT (1987)

Brain Cooling = sabse strong

Brain = 2% weight, 20% energy

Yawn = body ka cooling fan

~50% adults catch a yawn

Dekhkar, sunkar, padhkar bhi!

Mirror Neurons — dusron ko copy karne wale cells

Jitna close rishta, utna strong contagion

Choti age me contagion kam

Empathy ke saath develop hota hai

**Dogs apne owner ka yawn pakad lete
hain!**

**Vigilance + Synchronization = jhund ka
survival tool**

**Boredom, stress, focus — sab yawn
trigger karte hain**

**Quick Brain Check! Video PAUSE karo —
3 sawaal**

Answers: Brain Cooling
