

Thunder AFTER Lightning — Why?

Giant static electricity

Hotter than the Sun

One event, two parts: light + sound

Light wins the race

Count and find the storm's distance

Why it rumbles so long

Science can save your life

Lightning is the danger, not thunder

The whole story in one line

Flash but no boom?

Quiz

- 1) Light way faster than sound**
- 2) ~3 km**
- 3) Air suddenly heats & expands**
