

Why Does Coffee **WAKE** You Up?

Adenosine = your sleep timer

Caffeine = fake key, blocks adenosine

Tiredness hidden, NOT removed

Adrenaline up = alert + faster heartbeat

Effect starts in 15-45 minutes

Half-life ~5-6 hrs → no evening coffee

Crash = energy on loan, paid back later

Daily use → tolerance + withdrawal

Teens: keep under ~100mg/day

Quick Brain Check!

1.2.3 → PAUSE
