

House of Hundreds – I

3-digit numbers ka ghar

Hundreds, tens, ones — har digit ka apna kamra! Chalo andar chalein.

Har digit ka apna
kamra hota hai!

Today's goals

- ★ **3-digit numbers** padhna aur likhna (100 se 999 tak)
- ★ **Place value** — har digit kis kamre mein
- ★ **Expanded form** — jaise $357 = 300 + 50 + 7$
- ★ Numbers ke **naam** (number names)

Socho!

Number ek ghar hai

Mela ki kahani

Har 3-digit number ek **ghar** hai jismein **teen kamre** hain — **Hundreds**, **Tens**, aur **Ones**.

Har digit apne **kamre** mein rehta hai. Kamra badalne se number badal jaata hai!

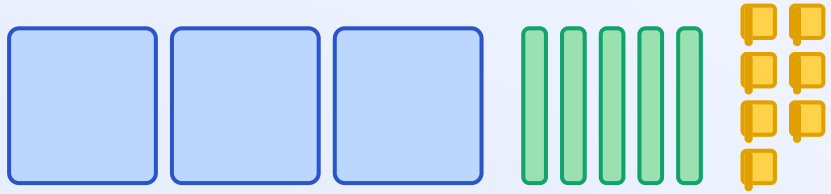

Place value ka ghar

Hundreds	Tens	Ones
3	5	7

Number **357** → 3 hundreds ke kamre mein, 5 tens mein, 7 ones mein.

Concept 2

Number banao blocks se

3 flats + 5 rods + 7 units = **357**

H	T	O
3	5	7

Expanded form (phailao!)

$$357 = 300 + 50 + 7$$

Hundreds ki 3 → 300 · Tens ki 5 → 50 · Ones ki 7 → 7

Har digit ki **value** uske kamre se aati hai!

Example 1

482 ko phailao

H	T	O
4	8	2

$$482 = 400 + 80 + 2$$

4 hundreds, 8 tens, 2 ones.

Example 2

Number ka naam likho

$$624 = 600 + 20 + 4$$

Naam: "Six hundred twenty-four"

Hindi mein: chhe sau chaubees.

Galti mat karna!

Digit aur uski value alag hain!

Common mistake

357 mein **5** ka matlab sirf 5 **nahi** — woh tens ke kamre mein hai, toh uski value **50** hai!

Aur zero ko mat bhoolo: $408 = 400 + 0 + 8$ (tens mein zero, par jagah pakadta hai).

Ab tum karo!

Q1. 596 mein H, T, O likho. H=___ T=___ O=___

Q2. Expanded form: $273 = \underline{\quad} + \underline{\quad} + \underline{\quad}$

Q3. 305 mein tens ki value kitni hai?

Answers

Chalo check karein

Q1. $596 \rightarrow H = 5, T = 9, O = 6$

Q2. $273 = 200 + 70 + 3$

Q3. 305 mein tens ki value = 0 (tens ke kamre mein 0 hai)

Recap

Aaj humne seekha

- ✓ Har 3-digit number = **hundreds, tens, ones** ke 3 kamre
- ✓ **Expanded form** — jaise $357 = 300 + 50 + 7$
- Digit ki **value** uske kamre se (5 in tens = 50)

Ghar ke har
kamre ko jaan gaye!

House of Hundreds challenge!

Koi bhi 3-digit number socho (jaise tumhaari building ka number ya bus number). Uske **H, T, O** likho aur **expanded form** banao.

Number ko zor se uska **naam** bolo — jaise "four hundred fifty-six"!
