

How Does WiFi ACTUALLY Work?

**Internet = Highway. WiFi = Your
Driveway.**

**WiFi = Radio Waves vibrating 2.4
BILLION times/sec**

Data Transfer Steps

QAM = All 3 at once → Billions of
bits/sec

Range vs Speed — Pick Your Trade-off

OFDMA — Every Device Gets Its Own Lane

**Distance + Walls + Interference = Slow
WiFi**

Same Frequency. 100,000× Less Power.
